THE GRAPE CURE, SAL-MUSCATELLE,

A NATURAL Sick Headache and Dyspepsia Cure IN AMERICA,

The crystallized salts, as extracted from grapes and fruit, a most wonderful product from Nature's laboratory. Have it in your homes and travels—a specific for the fagged, weary or worn out. It cures sick headache, dyspepsia, stomach and bowel complaints; removes biliousness, stimulates the liver to a healthy action, counteracts the effects of impure water and the excessive use of alcoholic beverages, and prevents the absorption of malaria. Supplies to the system the want of sound ripe fruit.

ELECTIONEER STALLION.

FALLIS

No. 614 Sixteenth st., cor. F and Sixteenth, SACRAMENTO. DESCRIPTION:

PESCRIPTION:

FALIIS is a dark bay, with hind feet white; foaled March 25, 18-8; bred by Leland Stanford, Palo Auo. California. He is 16½ hands high, and weighs in ordinary flesh about 1,200 pounds; long bodied and of immense muscular power. His disposition is nearly perfect, and seems to know nothing but trot. He is the fac simile of his sire in form, disposition and color, with the contribution of time which is in his favor being exception of size, which is in his favor, being PERFORMANCES.

PERFORMANCES.

He trotted as a two-year-old a mile in 2:38, and undoubtedly would have shown as fast as any of his renowned brothers and sisters had he not had the misfortune of cutting one of his tendons, which so lamed him that he was not worked any further until the past winter, when he showed trials, a quarter in 35 seconds, and a mile in 2:25. He has been bred to a few mares, and his produce show remarkably weil. Among them he has a three-year-old that can show close to a 2:20 gait, and a two-year that is nearly as fast, and will be entered the coming season throughout the circuit on this coast. The Electioneers now have the fastest records in the world for the following ages: One-year-old, 2:36½; two-year-old, 2:20; three year-old, 2:19½; and has 12 under 2:30, and 5 under 1:20, and could have swelled the number 30 more last season had Governor Stanford so desired, and his colts, all told, do not exceed 2 0. PEDIGREE:

By Jlectioneer, he by Rysdyk's Hambletonian; Electioneer's dam Green Mountain Midd (dam of Prospero, 2 20; Dame Trot, 2:22½; and Elaine, 2:20); by Sayres' Harry Clay, 2:29; first dam Felicia, by Messenger Duroc, by Rysdyck's Hambletonian; second dam, Lady Fallis (dam of Socrates, Kisbar, 2:30, and g. d. of Clingstone, 2:14), by Seeley's American star. Third dam, Beck Mare, by Long Island Black Hawk.

TERMS.—Will stand at the low price of \$60 for the season, payable on or before the list of July, 1886. Mares not proving with foal may be returned next season, free of charge, if the horse is still in my possession.

The stable companion to FALLIS will be the young stallion,

ALBENTON is a bright bay, without white, foaled April 14, 1883, bred by Leiand Stanford, Palo Alto, Cal. He is 16 hands high, and has size, style and finish. Was sired by Gen. Benton (the sire of six in the 2:30 list, and the sire of the fastest four-year-old in the world, Salty Benton, 2:17'4). He is also the sire of Arab, that made a record last season of 2:17'4, and is now offered to be matched against any horse in the world.

The dam of Albenton is Abbie by Almont (the

now offered to be matched against any horse in the world.

The dam of Albentou is Abbie, by Almont (the sire of 32 in the 2:30 list), he by Alexander's Abdallah (the sire of Goldsmith Maid), second dam, Norma (the dam of Lucy Cuyler, one-half mile to wagon, 1:95, and a mile in 2:15½). She was by Alexander's Norma (the sire of Lula, 2:15, and May Queen, 2:20). Albenton has been handled but little, on account ot his age and large size, but showed a quarter as a yearling close to a 2:40 gait, and received the first premium at the California State Fair, 1885, for the best two-year-old standard trotter, over colts by Sultan and other noted sires Will make the season of 1886 at \$40 for the season, limited to twenty approved mares. Mares not proving in foal can be returned the following season, free of charge, if he is still in my possession. For further particulars, address F. P. LOWELL, Sacramento, Cal.

Is kept at the same place and pri e; weighs 1,200 pounds; 1634 hands high; sired by Hambletonian Chief, dam Lady Vernon, record, 2:285, and dam of Oakiand Maid, 2:22, who was sold for \$25,000,

The New York Evening Post has obtained a copyright upon its special cable dis-patches, which will prevent the Associated Press from using them hereafter. This will not affect the Pacific coast morning papers, often even London morning news reaches us before we go to press for the same day. This is another illustration of the unspeak-able advantage of living in California—the very west end of "Westward, Ho!"

A correspondent suggests that some lav road trains. He says that between Roseville and Auburn many owners of stock seem to use the lands along the railroad track and ithe public highways as corrals; that various kinds of stock so pastured are frequently killed, but the owners do not care so long as the railroad company pays full price for all animals thus slaughtere notwithstanding the public is endangered He thinks the matter might be remedie by a law making it a penalty for any owner o permit stock to run at large; making hem responsible for any damages resulting from the same, and forbidding the paynent of compensation when animals are killed or injured by railroad trains or on the highways. There certainly is no jusice in laws which permit a man who owns stock, to allow it to roam at large where-ever it can find sustenance, and compel others to protect themselves by fen against trespass and invasion. should a man who has no stock be placed

The Winters Express says: "Upper," "higher" and "interior California" are new names suggested for that portion of the State hitherto called northern. As a native Californian, born in "southern," raised in "northern," and living in "central" California, we are opposed to this nomenclature. We believe in California as we do in the Union—one and undivisible—and shall stand up for just this, and only this.

The editor of the Express says that after having lived in southern and northern California he is now living in "central California." If this designation is proper and necessary to state the facts concerning his various residences, why is it not proper for general purposes? and why does he to point out his present geographical loca-tion? If he blots out this method of designation, and adopts the "ore and indi-visible plan" suggested by him, then he would say: "I was born in California, raised in California, and am now living in California." This would not furnish the inportant events had occurred in, nor in et, that they had not all taken place in one locality. The same area of territory along the Atlantic coast is designated by the names of not less than ten States, or three grand geographical divisions, known as New England, Middle and Southern States. is not overdoing the matter to ivide California, for convenience in desig nating different portions of its vast extent.

## The Coloma Fruit-Growers' Meeting.

PLACERVILLE, April 25, 1886. EDS. RECORD-UNION: In the issue of your paper of the 24th, a correspondent, signing imself "E. H.," seizes an opportunity to attack the Coloma fruit-raisers and the California Fruit Union in referring to a lispatch relative to the action of the Coloma fruit-growers on Wednesday after-noon last. Ordinarily I consider a personal attack in a newspaper unworthy of attention; but, aside from his personal at-tack, "E. H." does the fruit-raisers of our argest fruit-raising section such an injus-ice in his strictures, that I want to present few facts to your readers. "E. H." I can state positively that no vote was taken in indorsing the so-called Fruit Union. No remarks were made showing confidence in the Fruit Union, except by its special representatives, Messrs. Buck (the Manager of the Union) and Allison and two or three others. By actual count 323 of the persons who were present are known to be opposed to the Fruit Union, and only five or six are in favor of it.

In an answer to this I present the following: At a meeting of the Coloma Fruit Union (the only organization of fruitgrowers in this county) held on April 8th, the question was discussed whether or not "It was to the best interest of this local union to stand by the State Union in its entirety or combine with the fruit-growers in the co-operative company at Newcastle."

A resolution to stand by the Newcastle ompany was lost by a vote of 15 to 6. desolutions were also adopted unani nously "declining the tender made by an agent of a certain Sacramento firm, who ntend establishing a branch in the East, to sell the fruit of the members of this Union at 8 per cent. commission. Also, that it is the sense of this organization that it would be ill-advised, detrimental and against the best interests of the State Union as well as of the members of this Association, for any grower to contract to sell his fruit for not shipping through the California Fruit

My quotations are all from the published proceedings of the meeting, appearing in the Mountain Democrat of April 17th, and furnished for publication by a leading member of the Coloma Fruit Union. They

But one word more. "E. H." says that 323 of the persons present on Wednesday were known, by actual count, to be opposed to the Fruit Union. There are no that many large fruit-raisers in the county. The membership of the Coloma Union is between twenty and thirty, and their vote on April 8th to support the Fruit Union (15 to 6) showed almost their entire

That sweeps away a whole city, starts from a flame so small that a glass of water would extinguish it. In like manner, the most painful and fatal maladies of the throat and lungs ordinarily develop from small beginnings, not difficult of cure if promptly treated with the proper remedy. But their progress is insidious and delay may be fatal. Colds and coughs lead to be a comparation of the control of the cont Laryngitis, Asthma, Bronchitis, Pneu-monia, and Consumption. The only medicine certain to cure every bronchial and pul-monary affection not absolutely incurable is Ayer's Cherry Pectoral.

During 40 years it has steadily grown in popular estimation, and is now a household reliance in many thousands of families. Parents, whose lives were preserved by AYER'S CHERRY PECTORAL when they were young, are now saving the lives of their children with it. L. L. LEWIS & CO.

A few Testimonials from well-known Citizens, who are using our NON-EXPLOSIVE "JEWEL" **VAPOR STOVES:** 

MESSRS. L. L. LEWIS & CO.—GENTLEMEN: The "JEWEL" VAPOR STOVE I bought of you April 5th is well named, for it is a Jewel, indeed. I have used it now almost three weeks, and in that time the expense of running it has not been one-half what it has cost me heretofore for wood or coal, not speaking of the amount of labor it has saved my family, such as lugging up wood for each day's cooking, chopping kindling, blacking stove, taking up ashes, and a hundred things pertaining to a Cook Stove that the "JEWEL" does away with. I would advise everyone to buy one of these Stoves, as I honestly believe they will save half the expense in fuel, if properly used. Respectfully, GEO. SMITH, corner Tenth and G streets.

MESSRS. L. L. LEWIS & CO.—Gents: My "JEWEL" VAPOR STOVE works like a charm. I would not take \$100 for mine, if I could not get another. The expense of running them is so small compared to the cost of other fuel that I predict an immense sale for them. No house should be without one.

DR. W. W. LIGHT, I street, bet. Eleventh and Twelfth.

MR. L. L. LEWIS—MY DEAR SIR: My wife is just delighted with our "JEWEL" VAPOR STOVE we bought of you, and it is a wonder that more of them are not in use. Yesterday morning we turned on the burners and started breakfast, and in just fifteen minutes everything was cooked and on the table, and I don't think we burned two cents worth of gasoline in cooking the meal. We would not be without it.

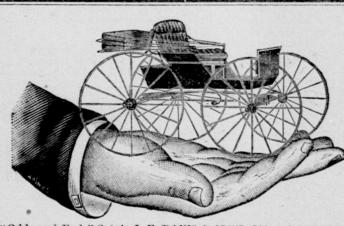

W. J. WALLACE, 619 P street.

L. L. LEWIS & CO.—Sirs: The three VAPOR STOVES we bought of you on April 1st, for Mr. J. Platt, Sixteenth and M, E. E. Myers, Seventh street, P and Q, and myself, are doing finely and we are all delighted with them. They bake to perfection, and as to cooking they are the boss. We can cook a meal on our "JEWEL!" VAPOR STOVE in about one-half the time it took us to do it on our cook stove. We know of three or four families who are going to get them, after seeing how nicely ours worked. Respectfully, C. B. STRONG, Twenty-fourth and I streets.

The above are a few Testimonials we present to the public, that they may see what those that have our "JEWEL" NON-EXPLOSIVE VAPOR STOVES in use have to say about them. We are the Sole Agents for these NON-EXPLOSIVE STOVES in California, and buy no other until you call and see them at our store. They are absolutely safe; they burn 25 per cent. less than any other Vapor Stove, and they are the only Vapor Stoves that has an oven permanently attached, leaving the upper holes always ready for cooking.

WHEAT—There was no trading in Grain today, the Exchange being closed on account of the funeral of the late ex-President D. S. Cook.

POTATOES—About 750 bags new arrived today, causing prices to decline. Moderately liberal shipments are at hand from Oregon, River Reds are not quite so firm. Wharf rates are quoted: New Potatoes, \$1 25@1 50; Early Rose, 50@75c; River Reds, 40@45c; Tomales, 60@75c; Petalumas, 40@60c; Peerless, 89@90c; Humboldt Reds, 60@75c; do Kidney, 75@90c; Peachblows, 80@90c; Oregon Garnet Chile, 70@80c; Burbank Seedlings, \$1 35 \(\frac{1}{2}\) ctl.

ONIONS—Firm in price. Quotable at \$6 \(\frac{1}{2}\) ctl.

ONIONS—Firm of price. Some poor Eastern are offered at 4c \(\frac{1}{2}\) b. re offered at 4c n b.

VEGETABLES—There was quite a drop in As

same as those published on Saturday.

It is impossible at this time to ascertain what is the basis upon which the transcontinental trouble has been settled. None of the officers of the different roads in this city know what the terms of settlement are, and it may be some time before they are made public. The ticket offices of the Southern Pacific and Atlantic and Pacific Railroads are still crowded with people who have rebate checks to cash, or who are seeking to secure return tickets on orders secured East. This rush will continue for some time to come, as it will be long before the thousands of new-comers in the State return home.

Yosemite travel has increased very much since the rains ceased, three coaches a day being run from Raymond, the terminus of the proposed withdrawal of these creates some surprise, as it was expected that they would remain indefinitely. There is that they would remain indefinitely. There is but little apprehension that the departance is but little apprehension that the departance of troops will be followed by trouble. Only fifty Chinamen remain here, and their presence excites but little comment. While some bitterness of feeling still exists between classes of the people who were opposed to each other during the trouble, it is gradually disappearing, and. unless something occurs to arouse it anew, will soon be entirely gone. Four militia companies long before the thousands of new-comers in the State return home.
